AVOID DISAPPOINTMENT... GET YOUR MEET ENTRIES IN BY TUESDAY AFTERNOON!

A big thank you goes out to Ellen Cartsonis who has bravely undertaken the task of leading our Orca Computer Team this season.

Ellen and the other parents who have volunteered to assist have an extremely big job to do, especially with the number of swimmers we have. Just think of making the 3 separate entries for each of the over 200 swimmers...and that is just the first step to coordinating with the other team, merging their data, and getting the heat sheets done.

Late and incorrect entries can be a problem, and every parent and their swimmer needs to take responsibility for making sure that Sandy and the parent-lead computer volunteer team have what they need so they can get their job in a timely manner. This is especially important when we are the visiting team as we must have our entries to the "home" team a day earlier as they are responsible for merging the teams and creating the heat sheet.

To avoid disappointment, please have your swimming entries in on time. If your child is not at practice early in the week, please email the events they want to swim by the Tuesday deadline. Ellen will send out an email by Wednesday morning with any swimmer who has

not entered. If you see your swimmer on that list, please respond immediately to Ellen to let her either know their events or that they will not be swimming.

We want all Orcas to swim and maximize the value of their summer league, and we can do that with your help.

THE ORCA WEBSITE.. TAKE A LONGER LOOK!

Thanks to our webmasters Yasser Farra & Laura Garner, the Orcas have the best website in the league. The Orca Website is more than just a place to find out the latest on practices and meets. You can find best times for your swimmer, records, current and past photos. It is a great way to get to know more about your swimmer and the team.

(For fun....Do you know who holds the Orca record for the Girls 15-18, 100 IM?)
